6/30: Document 948, dealing with the manner in which Detective Carroll got a wrong address for Oswald is in a file labelled "Secret Service Testimony of Lt. Revill 5/19/64" There is no testimony in it, only a two-paragraph report from Secret Service Agent Forrest Sorrels to Inspector Kelley on the Carroll Matter, dated 5/19/64.

Document 999, labelled "FBI,Numerous Exhibits 5/28/64" contains only a Xeroxed copy of a letter from J. Edgar Hoover to J. Lee Rankin of that date on "materials which the Commission had requested of the Russian Government March 24, 1964." These were apparently used for handwriting speciments of Lee and Marina, and in some cases apparently could not be identified with him. In any event, these "numerous exhibits" are not in the file.
